

## Yahoo Web Hosting - New and Improved

Yahoo Web Hosting has a new and improved web hosting platform which is now offering unlimited web hosting with unlimited disk space and bandwidth. It is the first unlimited web hosting package among web hosting providers and aims to be extremely successful in the shared web hosting marketplace.

The new unlimited Yahoo Web Hosting service benefits small businesses by eliminating an important worry for small businesses owners and webmasters, and answers one of their most pressing questions: How can I most easily take my business online? With the new Yahoo Web Hosting, website owners no longer need to be concerned with the amounts of disk space, data transfer, or email storage included with their web sites.

Now, because of the unlimited hosting, there is no need to be concerned about the size of a website or the maximum number of visitors that site can support. Webmasters can concentrate on creating a clean-looking design and targeting visitors. Also with a great set of web authoring tools, anyone can follow a guide with easy, step-by-step process in creating their site. The new Yahoo Web Hosting upgrade offers valuable benefits that no other web hosting provider can compare to.

The new changes to Yahoo Web Hosting are: Yahoo Web Hosting has combined three web hosting plans into one plan to all new customers. The new plan includes: - Unlimited disk space, allowing you to create as unlimited web pages - Unlimited data transfer, allowing as many visitors to your site possible - Unlimited email storage The web hosting plan comes with a 30-Day Satisfaction Guarantee.

The new yahoo web hosting upgrade is available now and can be accessed through <http://www.website-hostingco.com>. Yahoo Web Hosting is priced at \$11.95 per month, and requires a minimum 3-month term which is automatically renewed each 3 month period.

Yahoo is dedicated to helping website owners and businesses succeed online. The new and improved web hosting aids current customers by meeting an objective by supporting the need for online expansion for webmasters and website owners. Yahoo Web Hosting now offers unlimited capacity to grow any business online. With no limits on web hosting plans, site owners can focus on expanding their online presence.

Yahoo is a leader in helping entrepreneurs and providing web hosting solutions to small businesses and website owners. Yahoo! is the No. 1 Internet brand globally and reaches the largest audience worldwide - 196 million unique visitors per month. Over the past eight years, Yahoo has developed into the Internet's leading global business services company!

The new and improved Yahoo Web Hosting unlimited web hosting is a first. It is a premium upgrade and rivals the major providers of shared hosting services for small businesses and webmasters. Other web hosting companies don't quite compare to the feature of disk space, data transfer, and email storage. The new Yahoo unlimited hosting is unique and valuable and is an exciting movement in the web hosting industry.

The 30-Day Satisfaction Guarantee allows customers to cancel their orders within 30 days without any penalty fees. Customers who cancel within this time will receive a refund of the first three months hosting fee, less the \$7 fee that Yahoo! paid to its domain partner to register.
