

Playa del Carmen Vacation Rentals

More and more people are visiting Playa del Carmen and the Riviera Maya are choosing not to stay at one of the larger resorts, but rather a private vacation rental that offers just as many amenities, if not more. Don't be limited by four walls of a small hotel room, but rather enjoy the exclusivity only a private vacation rental can offer. Whether traveling with a family, larger group, or alone, renting a condominium or villa overlooking the beautiful Caribbean Sea has many benefits that can only make your Caribbean vacation that much more enjoyable.

Choose from a variety of rental properties ranging from a simple condominium to a lavish beach side villa with a private pool, which will make your Riviera Mayan vacation a memory that will last a life time. Enjoy the intimacy of being in a secluded villa away from it all, or choose a more centrally located vacation rental and be near the buzz of 5th Avenue in Playa del Carmen. There is a choice and option for everyone; from the budget traveler to the extravagant vacationer that spares no expense.

Choosing a private vacation rental has many perks and advantages, one of which is having a kitchen at your disposal, especially if traveling with small children. Don't want to cook so you can walk on the beautiful Caribbean beach with margarita in hand? Not to worry; hire a personal chef and concierge that can create specialty menus, arrange activities and excursions, and be on call 24 hours a day. Most vacation rentals in, and around, Playa del Carmen are also used throughout the year by the owners of the vacation property so they are well-maintained, and are kept clean and updated, which creates an ideal environment for rest and relaxation. Either way, whether you choose to spend your vacation exploring the cenotes, Mayan ruin sites, secluded alabaster beaches, the eco-parks of Xel-Ha and Xcaret, or if you spend the day in a hammock, with a good book, and an ice cold bucket of beer nearby, a private [vacation rental in Playa del Carmen](#), or other part of the Riviera Maya, will not only make your vacation memorable one, but it will certainly leave you planning your next trip.
