

## Why ebooks are raking It In

Have you always wanted an unlimited income that you didn't have to leave the comfort of your own home for? Have you ever thought about becoming a writer, and publishing books? Well, many people have become well-known authors, and have made quite a bit of money writing books, but it seems that even more are making a lot more money writing ebooks.

Ebooks can be a very valuable asset. Let me just list a few of the reasons why they have become so popular. First of all, paper books take what seems an eternity to get published, not to mention that it costs quite a bit of money in printing, and postage, and handling, and stuff. Ebooks do not have a publishing cost, plus ebooks are digital. They can be emailed to your client directly, or they can download the ebook from your website, giving them instant gratification, which everyone loves. They are also digitally stored, so you don't have all kinds of books cluttering up your house.

Ebooks also stay there, on the internet, indefinitely, if you will, making money for you, while you sit back, on the beach, contemplating what you will be writing your next ebook about. That's right; you can just relax while your ebook sits on your website, making you money. Many people are just raking in the dough from ebooks today. But, you will need to use some tools (there are links on my website to access these tools) to make sure that there is enough traffic being directed to your site.

There are all sorts of ways to bring traffic to your site, like writing articles, (like the one written here), using autoresponders, and buying mailing lists. My mentors, whom I have links to on my website, offer many tools and tips for driving traffic to your site. One tip is to build the customers trust, by offering plenty of free stuff. Free PDF files are a hot item to offer for free, because people can pass them around freely, appealing to more of a mass market. And any computer with Adobe Reader, (which can be downloaded for free), can read these types of files. PDF files are also considered valuable to search engines, thus making it easier for customers to find your site.

There are many other ways to get traffic to your site, and many other methods of making money online, but writing ebooks is one of the easiest and most profitable ways.
