### 1. File Format

When choosing a site, always ensure that the format of songs and music are compatible with your iPod. As long as it is one of these - AAC (16 to 320 Kbps), Protected AAC (from iTunes Store), MP3 (16 to 320 Kbps), MP3 VBR, Audible (formats 2, 3, and 4), Apple Lossless, AIFF, and WAV, you are safe.
